

ROOM AIR PURIFIER

Ideal for use in:

- Smoking areas
- Physician's waiting room
- Hospital ward
- Removing dust, pollen, bacteria, smoke or fumes

HS-3000A4 Room Air Purifier

Airfiltronix has developed a heavy duty room air purifier to filter out a variety of pollutants. It can sit on the tabletop, floor, or be mounted easily on a wall with special wall mounting kit (*see options below*). Excellent for use in small rooms to clear air of dust, smoke, pollen, bacteria, fumes and odors. Each unit will provide more than six air changes per hour in a room with volumes up to 2000 cubic feet. A variable fan speed control permits continuous adjustment of airflow. Made of steel with a baked enamel finish. No outside venting required.

Options:

- Wall Mount Kit
- Blocked Filter Alarm Unit
- Stainless Steel Cart
- Carry Handle

For filter information see page 17

For ordering information see page 19

Specifications

Model No.	HS-3000A4 Room Air Purifier
Overall Size:	12"D x 23.5"W x 15"H
Power Requirements:	115V AC, 100W, 50/60 Hz, 230V AC optional for export
Weight:	28 lbs.
Blower:	530 CFM (free air), Backward Curved Impeller
Noise Level:	A weighted noise level 68 dB at 1 meter

Airflow Performance Statistics

Filters Installed	Max Airflow CFM
None	450
HEPA	275
HEPA/Dacron/0.5" Carbon	220
HEPA/Dacron/2" Carbon	170
0.5" Carbon	300
2" Carbon	184
2 each - 2" Carbon	160

All numbers refer to average readings taken at full blower speed
